

- CERAMIC
- PORCELAIN
- NATURAL STONE
- GROUT JOINTS
- CONCRETE
- TERRACOTTA
- WALL PAINT

WHAT'S IT FOR

- Rapidly removes mould and sanitises stone, plaster, cement, grouting, ceramic, glass and marmorino plaster surfaces.

ADVANTAGES

- Easy-to-use, ergonomic container with spray applicator.
- Ideal viscosity: can be easily applied to walls.
- Acts rapidly and effectively within a few minutes.
- Effectively removes mould from grouting.

HOW TO USE

Ready to use: no dilution required

Application:
Spray FILAACTIVE1 directly onto the surface to be cleaned, from a distance of about 15-20 cm, while keeping the bottle upright. Leave to act for approximately 15 minutes. Soak up any excess product with a damp cloth to prevent dripping. Repeat if necessary, then wipe the surface clean with a damp sponge.

COVERAGE

With 500 ml:

5-10 m² the coverage varies depending on the material's absorption capacity

The coverage is purely indicative

Caution:
do not spray on plants, fabrics and metals. Should this occur, wash immediately with water. Do not use on new polished stone. **Caution:** before using on coloured plaster, first try on a small section to avoid possible colour alterations.

Packaging

500 ml bottles with spray nozzle (trigger): 12-piece cartons.

WARNINGS

- Keep out of reach of children.
- Dispose of the container properly after use.
- Do not use in conjunction with acids. It may produce hazardous gas (chlorine).
- Ventilate the room during and after application.
- Do not remove dry mould in order to prevent dispersion of the spores.

TEMPERATURES

Storage temperature: from 5° to 30° C.
The product should be applied to materials with temperature between 5° and 30° C.

CONTENTS

Non-ionic surfactants < 5%, chlorine bleaches 5-15%.
Contains: 5% active chlorine solution.

UK MARKET ONLY: HSE No 9667

LABELLING

Warning: Danger

Hazard indication:

Causes severe skin burns and eye damage. Very toxic to aquatic life. Contact with acids liberates toxic gas. Warning! Do not use together with other products. May release dangerous gases (chlorine).

Caution recommendations:

If medical advice is needed, have product container or label at hand. Keep out of reach of children. Avoid release to the environment. Wear protective gloves / protective clothing / eye protection / face protection. Immediately call a POISON CENTER or doctor / physician. Dispose of contents / container in accordance with official regulations. Contains: SODIUM HYPOCHLORITE

SODIUM HYDROXIDE.

TECHNICAL INFORMATION

Appearance: transparent viscous liquid

Odour: typical pungent

Density: 1.111 kg/litre

pH: 13.5

The information above reflects our latest technical know-how and is the outcome of ongoing laboratory research and testing. However, some factors are beyond our control. It is essential to integrate our suggestions with your own on-site preliminary tests and checks.
