

**Mapei (UK) Ltd** is the UK subsidiary of the Mapei Group, the world's leading manufacturer of building products. With over 70 years of manufacturing experience, Mapei provide complete product systems for all types of construction.

CPD title:

### 4 CPD seminars: see below for details

1. **Fast Track Screeds**
2. **Sub-Floor Preparation**
3. **Effective Waterproofing**
4. **Avoiding Ceramic Tiling Failures**

#### Seminar 1

- Provides guidance for the specification of screeds
- Avoidance of screed failures by correctly specifying suitable materials and construction methods
- Understanding of how material types differ in performance
- Awareness of current European and British Standards and Building Regulations
- Understanding of British Standard compliance criteria
- Aesthetic qualities of screed materials

#### Seminar 2 details

- How preparation of differing sub-bases is crucial to successful flooring installation
- Responsibilities with reference to British Standards of the necessity for correct preparation
- The correct methods of testing sub-floors for moisture and contaminants to British Standards and manufacturers' requirements
- Provides an understanding of the requirement to specify particular adhesives for differing floor laying materials and installations

#### Seminar 3

- Provides guidance to designers enabling the successful specification of any waterproofing project
- Explains the common terminology used
- Explains how systems work and how to choose an appropriate system
- Looks at common pitfalls and why they occur
- Shows successful projects

#### Seminar 4

- Explains common ceramic tiling failures
- Guidance for choosing the correct fixing method
- Considers Adhesive Classifications (BS)
- The importance of background preparations
- Shows successful projects

#### Duration

Each seminar lasts 40 minutes

#### These construction CPD Seminars provide technical information on systems of products

#### Also available
